

Mastermind Groups

What would you do with your own personal board of directors? How could you grow as a leader with input from an exclusive group of diverse thought leaders committed to their success and yours? Our LGH Mastermind Group is a six-month, monthly series of interactive conversations that are a combination of brainstorming, education, peer accountability and support in a group setting.

You will:

- Discuss key leadership best practices and current leadership thinking
- Examine ways to expand your leadership capabilities
- Set inspiring business and personal goals and
- Hold each other accountable to achieve those goals

This is not a place to be comfortable; it is a place to push you into new arenas and professional challenges.

Each session tackles a topic or theme that is selected by the group. The group selects six topics from a list of relevant leadership practices. The topics can be customized for your business. Pre-reading is assigned to ensure foundational understanding of the topic so the conversations will be rich. Each session will explore the topic, how it relates to your current experience, and how you can incorporate new skills into your leadership toolkits. The ideal size of the group is four to six participants and each session is one and a half hours in duration. The session can be in-person or by teleconference or video conference to best meet the needs of the group.

If you want to be inspired, build deep and lasting connections, be challenged by different perspectives, and be transformed as a leader - then our mastermind group is the way to go!
